OUR SERVICE FRAMEWORK

TRAVEL SMARTER. GO FURTHER.

01 PERSONALIZED TRAVEL CONCIERGE

We maintain a comprehensive and continuously updated profile for every frequent traveller, capturing individual preferences, travel patterns, seating choices, loyalty memberships, dietary requirements, and more. This enables our team to anticipate requirements and deliver a truly **bespoke travel experience**.

02 PROACTIVE PNR MONITORING

Our dedicated PNR Monitoring Team reviews all active travel bookings at the end of each business day. We continuously monitor fares, schedules, availability, and changes in travel conditions to identify opportunities for better fares, improved routing, enhanced flexibility, and greater value. Where a more advantageous option becomes available, our team proactively advises and assists with the necessary changes.

03 SERVICE EXCELLENCE & CONTINUOUS REVIEW

Our commitment does not end once a booking is confirmed. We continuously monitor our service performance and traveller experience to ensure that our standards remain consistently exceptional. Feedback, service levels, response times, and areas of improvement are regularly evaluated to create a culture of continuous refinement and excellence.

04 EXECUTIVE REVIEW MEETINGS

Periodic review meetings will be conducted with your designated travel committee or management team. These sessions provide an opportunity to review travel performance, discuss emerging travel trends, evaluate savings opportunities, address service requirements, and present strategic recommendations. Our objective is to function not merely as a travel agency, but as a **trusted strategic travel partner** to your organization.

05 FREQUENT FLYER PROGRAM MANAGEMENT

We maintain an up-to-date database of all Frequent Flyer Program memberships associated with your organization's travellers. Our team proactively communicates relevant airline promotions, loyalty benefits, mileage opportunities, and new schemes that may provide a direct advantage to your travellers. We also provide assistance with mileage redemption, membership queries, upgrades, and coordination with airline loyalty program representatives, wherever required.

06 AIRLINE NEGOTIATION & TRAVEL SPEND EXPERTISE

Our specialists continuously analyze your organization's travel spend across airlines, routes, travel classes, and traveller segments. Through this analysis, we identify opportunities to optimize airline selection and recommend strategic shifts wherever they can deliver greater savings, enhanced flexibility, improved benefits, or superior traveller value. Our approach is designed to balance cost efficiency with traveller comfort and corporate travel priorities.

07 STRATEGIC NEGOTIATION SUPPORT

With a detailed understanding of your travel patterns and expenditure, **THE TRAVEL MINE** can support negotiations with airlines and other travel partners. By analyzing route volumes, frequency, seasonal demand, travel classes, and overall spend, we identify opportunities for corporate discounts, route-specific agreements, preferential fares, and customized travel solutions. Our objective is simple: to maximize the value derived from every travel rupee while maintaining the highest standards of traveller experience.
